By far the most beautiful air rifle ever made. Not only a beauty for looks... but absolutely the straightest-shooting, hardest-hitting 1000-shot repeater you've ever had your hands on. Its gleaming copper barrel, telescopic-type sights, ebony-black stock with Golden Eagle crest, and its hair-splitting accuracy have made it a favorite everywhere. A great big \$3.50 worth. Write today for the 1986 Daisy Catalog showing in full color the rest of the Daisy line... from sturdy, \$1.00 Stag to the super-accurate, pump-action repeater at \$3.95. *designer*
